Phenotyping data standardization and management working group

Jinha Jung, Jennifer Clarke, Peter Selby, Jennifer Lachowiec

May 2, 2024
AgBioData Community Workshop
Survey before the Kick-off Meeting

What time zone are you in?

25 responses

- CDT: 1 (4%)
- Central Standard Time (CST): 2 (8%)
- Eastern: 3 (12%)
- GMT -5: 1 (4%)
- GMT-3: 1 (4%)
- Mountain: 3 (12%)
- Pacific: 2 (8%)
- Pacific time: 1 (4%)
Survey before the Kick-off Meeting

Which subgroup are you interested in?
26 responses

- Phenotyping data standardization: 50%
- Phenotyping data generation: 11.5%
- Phenotyping data management: 38.5%
Survey before the Kick-off Meeting

We will have two kick-off meetings in Feb. Which meeting will you join?

26 responses

- 53.8% chose 2/22/2024, Thursday, 11 AM (EST)
- 42.3% chose 2/27/2024, Tuesday, 11 AM (EST)
- Cannot join either
Kick-off Meetings in Feb 22/27, 2024
Description

This working group will address the need for standards, guidelines, and expertise for phenotypic data management that can be implemented by the consortium member databases (DBs) and the large community of data users and generators. In particular, this working group will identify and provide recommendations for two categories of phenotypic data usually curated by the member DB resources:

(i) phenotypic data curated from the literature; and
(ii) phenotypes submitted directly by the data generators (e.g., experimental data from a breeding trial).
Sub-groups

• Phenotyping data standardization
  • Lead: Jennifer Clarke and Peter Selby

• Phenotyping data generation and management
  • Lead: Jinha Jung and Jennifer Lachowiec
Key Deliverables

• This is for one year
• This WG is a part of AgBioData (make sure to drive discussion in alignment with the AgBioData theme)
• This WG is NOT about learning how to process your data
• We would like to develop a white paper at the end of the year 1
• We would like to provide recommendations to our community including existing - and needed - best practices and tools
First Monthly Meeting in April

• Phenotyping data standardization sub-group
  • April 9, 2024

• Phenotyping data generation and management sub-group
  • April 16, 2024

• In the first month sub-group meeting, we mainly focused on
  • Developing vision statement
  • Developing tasks
